### DIRECTIONS FOR SAFE AND PROPER APPLICATION

**STEP 1.**

Clean and dry area where guards are to be installed with plain water and a dry towel. Avoid using cleaners which contain anti-static components as they will keep scratch guards from adhering. Package contains one pair.

**STEP 2.**

Peel apart the guards (they are stuck together for protection).

**STEP 3.**

Guards can be removed and reinstalled as often as you wish, as they are static cling.
